- Beneficiaries receiving Social Security Disability Insurance and/or Supplemental Security Income receive a comprehensive written benefits analysis that is tailored to the individual participant's benefits situation and stated work goal.
- The Benefits Specialist meets one-on-one with the participant to discuss the
 written analysis and available work incentives which include health care options.
- Follow up services are provided at regular scheduled intervals and at critical touch points which are identified at the initial meeting.
- Beneficiaries can receive assistance in communicating with the Social Security Administration and the Nebraska Department of Health and Human Services.

SSI/SSDI, OUTREACH, ACCESS, AND RECOVERY-SOAR

- Program designed to increase access to SSI/SSDI for eligible adults who are homeless or at risk of homelessness and have a mental illness and/or co-occurring substance use disorder with other medical impairments
- Nationally, only about 30 percent of individuals who apply for SSI/SSDI are approved on initial application. For people who are homeless and have no one to assist them, that percentage is cut by more than one half. When applications are denied, appeals can take an average of *one year* to complete, and in that time applicants often give up hope. There are now 50 states implementing SOAR. These states report average approval rates of 65% in an average of 94 days on initial SSI/SSDI applications using the SOAR model.
